

Explore Fort William

Come get a sense of the grandeur and scale of Fort William by exploring our Historic Structures. A site map of the Fort allows you to click on any of the buildings to get descriptions of their roles and functions in 1815 when Fort William was the inland headquarters of the North West Company. A virtual reality video complements the building descriptions and helps bring the rich history of the Fort alive.

Be sure to explore our Modern Facilities to discover the breadth of the services the Fort offers today to accommodate the needs of contemporary visitors. In this section, maps and blueprints of each facility are available to assist you in planning events and functions at Fort William Historical Park. Our modern venues are equipped with state-of-the-art audio visual technology and other amenities that make us the perfect place to host banquets, conferences, and retreats.
